

Platinum Hosting Plan Only \$29.00 a Month

What You Get?

- **Free Changes and Updates** – our hosting plan includes 2 hours of design time every month at no extra cost. This includes adding/changing pictures, text, menus, coupons, etc.
- **Quick Start Search Engine Optimization** – we make sure your website files are organized properly for search engines. We research your competition to learn what keywords will get you to the top of the search engines plus we provide you with the proper keywords and met tags to make sure you have the proper descriptions embedded into your website for maximum results on search engines.
- **Automatic Monthly Submission** to all of the major search engines like Google, Yahoo, MSN, Bing, etc... As well as submission to DMOZ Open Business Directory
- **Newsletter Management Tool** for creating lists and sending customized text or HTML newsletters to small distribution groups.
- **Unlimited Email Accounts** with webmail login as well as POP and SMTP set up for software programs such as Microsoft outlook (we will help you set this up remotely if necessary).
- **Visitor Statistics** - Your website's visitor traffic is processed once a day. We provide statistical programs that automatically analyze your site's raw visitor log files and display them in a summary format. We will provide you with these statistics at any time.
- **WYSIWYG Editor** – (What You See Is What You Get). This allows our customers to easily make their own changes and updates without knowing HTML code or any fancy programs.
- **Free Domain Name and/or Domain Transfer** – eliminate any cost you may be paying for your domain by using our hosting plan.
- **Website Maintenance + Tech Support - What does website maintenance include?**
We check to make sure there has been no vandalism to your website, guest book, message board or any other web applications. Regularly check website security to protect guests' and company information from hackers. Insure all pages are loading properly (including animations, sound files and images). Fix any broken links and visit all outgoing links to make sure they still work. Remove old or outdated content and update/add new content at your request
